

Product description

Safety is the top priority when users are working on live parts. The insulated single open-end spanner is the ideal tool for electricians and electricity specialists. With 15° jaw positioning, the installation of terminals and sleeves in restricted spaces becomes child's play. The insulated single open-end spanners undergo individual piece testing as per the international IEC 60900 standard, thus providing users with a tool to work safely on live parts up to 1,000 V AC.

Application

Safe installation of terminals and sleeves, conductor connections and fastening of conductor lines. For work in the area of live parts up to 1,000 V AC.
