

Precision

±6%, tracing to national standards (see table for other tolerances).

Handle

Torque infinitely adjustable with Torque-Setter setting tool (also supplied). Ergonomic multi-component handle, particularly light and compact. Handle sizes proportioned to optimise torque setting. Audible and perceptible click when the pre-set torque has been attained. Compatible with all blades of the 2859.

Standard

DIN EN ISO 6789.

Extra

Incl. works inspection protocol. Delivered in practical plastic box.

Note

Bit holders or blades are not included in delivery.

Application

For applications where recommended torque settings are important. Use in combination with a Wiha torque interchangeable blade.
