

RoHS COMPLIANCE STATEMENT

Effective on July 1, 2006, the European Union adopted the Restriction of Hazardous Substances in Electrical and Electronic Equipment (RoHS) Directive (2002 / 95 / EC)

With this Directive, it will ban the sale of all new electrical and electronic equipment that contains more than designated maximum, allowable levels of Lead, Cadmium, Mercury, Hexavalent Chromium, PolyBrominated Biphenyl (PBB) and PolyBrominated Diphenyl Ether (PE DE) flame retardants.

Pactumax International Ptd Ltd is a distributor of plastic materials in pre-molded stock shape forms. To the best of our knowledge, plastic materials that we sell do not contain any chemical of concern above the limits designated in the RoHS Directive as described above or its amendments.

As a distributor, we do not formulate or manufacture any of the materials that we sell. Chemicals contained or used in the manufacturing of the materials are considered intellectual property of the manufacturer. Manufacturing of the materials are selected and used under the sole discretion of the manufacturer. As such, we are unable to represent or certify to our customers that exact ingredients that are contained in or used in the manufacturing processes of the materials we provide for resale.

Pactumax International Pte Ltd can and do hereby certify that we do not add any of the RoHS restricted materials during its cutting, storage or handling processes. Any RoHS compliance information provided by Pactumax International Pte Ltd to our customers is intended only as research assistance so that they may complete their due diligence. It does not represent in any way a certification by us as to the chemical content of any product.
